Why AI Security Is Critical

Unprotected AI is an existential threat to your business.

77% of enterprises experienced AI security incidents

$4.5M average cost of AI-related data breach

92% use AI without formal security governance

340% increase in AI-targeted attacks since 2023

Key Risks Without AI Security:

! Data exfiltration through AI prompts and responses

! GDPR, HIPAA, SOC 2 compliance violations

! Prompt injection attacks hijacking AI systems

! Shadow AI creating uncontrolled vulnerabilities

! Board and regulatory pressure without metrics

AvertX360 eliminates these risks

AI Guard

Continuous, always-on protection for your entire AI ecosystem.

✓ **Real-Time Monitoring**

Monitor AI models, prompts, data flows 24/7

✓ **Threat Detection**

ML-powered detection of attacks and anomalies

✓ **Prompt Injection Protection**

Block prompt injection attacks automatically

✓ **Data Leak Prevention**

Prevent sensitive data exposure

✓ **Shadow AI Discovery**

Find all AI usage across your organization

✓ **Zero Latency**

Security without performance impact
